State Department of Audit

Augusta, Maine

December 2, 1941

To the Inhabitants of the Town of Rangeley:

In accordance with your request this department, represented by E. H. Shute, has completed an examination of the accounts of your town officials for the municipal year ended February 18, 1941.

Our report, herewith submitted, was prepared from your town records and, to the best of our knowledge and belief, properly reflects the true financial condition of your municipality as of that date; subject however to a probable shrinkage in the final settlement of unpaid taxes.

The data obtained by us is summarized in the following:

	Comments
Exhibit A	Comparative Balance Sheet
B	Treasurer's Account
C	1940 Valuation and Commitment
Schedule 6	Analysis of Change in Net Debt
7	Notes Payable and Bonded Debt
8	Excise Tax Collections

Respectfully submitted,

STATE DEPARTMENT OF AUDIT,

HAROLD E. CRAWFORD,

Municipal Auditor.

COMMENTS

CASH:

All cash recorded as received was properly accounted for.
Payments were made by check from properly authorized warrants.
The cash balance was reconciled with the bank, and the cash on hand.

TAXES:

The 1940 tax commitment was added and found to agree with the Assessors' records. The total commitment was accounted for by cash to the Treasurer, $25.49 in the hands of the Collector, or was still unpaid as shown on Schedule 2.
Prior years' taxes, which are unpaid according to the records, are also shown on Schedule 2.
It would appear that some determined effort should be made to collect all taxes that are overdue and, if found uncollectible, they should possibly be abated.

TAX LIENS:

The tax liens on file were checked and listed, as shown on Schedule 3.

TRUST FUNDS:

The trust fund investments were checked and are shown on Schedule 5.
It appeared that all income from trust funds had been properly accounted for. An amount of $40.26 was withdrawn and is carried in General Cash. This amount is included in Trust Fund Income — Liability Account.

GENERAL:

A partial check was made of paid bills, and as far as our examination went, all appeared to be proper charges and correctly recorded.
Verifications have been sent out to determine the date, rate of interest, and amounts of the notes payable.
With the exception of cash and trust funds, no external verification was made of your asset or liability accounts.

REPORT OF SUPERINTENDENT OF SCHOOLS

Twenty-three pupils in Senior High School have been taking Manual Arts Work as well as 23 pupils in Junior High. In addition there has been an enthusiastic craft club of 10 girls.

The Junior High boys use only the hand tools and are limited to the simpler projects. The High School boys make such things as lamps, small tables, end tables, magazine racks, book racks, book ends, gun racks, etc.

Mr. Russell has very kindly let the Seniors use his sheet metal equipment in his store.

The boys in the shop, together with the instructor, have given their time and completely painted the inside of the shop. They have also aided in changing the tool racks into a better position.

Instruction in shop work helps graduate men into Defense jobs. The State Supervisor has recommended a metal lathe be purchased. He also recommended the doors between the shop rooms be widened so that the instructor can see everything that is going on.

The enrollment of the Home Economics department is 46 girls. The Senior class made seven flannel shirts for the Red Cross. Noon lunches were started a month earlier this year. They consisted of one hot dish and many times fruit in addition. Approximately 120 pupils have been served daily. Many Federal Surplus foods such as canned milk, tomatoes, grapefruit slices and juice, dried soup, etc., were available which helped greatly on school lunch expense.

The past year has marked a substantial increase in the number of pupils taking lessons on Piano and Orchestral instruments. There are now forty pupils in this group. A beginners violin class numbering nine pupils was started after Christmas, and several pupils using School instruments are soon to acquire instruments of their own, thus making the school instruments available for still other pupils.

The High School Glee Club numbers sixty-five. An operetta is to be presented February 18th, and plans are under way to join with other Schools of western Maine in the annual Music Festival, this year in Sanford.

There are twenty pupils in the orchestra. Another new feature this year is a Junior High Glee Club of thirty members.

Randall Jacobs, Rear Admiral, U. S. Navy, Chief of Bureau of Navigation, has suggested the following studies be taught in High Schools to further the Navy Program.

1. Morse Code
2. Elements of Telephone Communication
3. Elements of Radio Communication
4. Elementary Principles of Radio
5. Plane Trigonometry
6. Solid Geometry
7. Quadratics
8. Physics
9. Chemistry
10. Shop Mathematics
11. Vocational Training
    (a) Machine shop work
    (b) Foundry work
    (c) Internal Combustion Engines (Gas, Diesel, Aircraft)
12. Elementary Navigation

At least two and one-half years of mathematics to include algebra, plane and Solid Geometry, and trigonometry should be given to male students.

Repairs

On November 26th the Boiler Inspector of the Travelers Insurance Co. made his inspection. He recommended:

1. The leak between the two Rear Sections on the High School Boiler be fixed after the present Heating season.

2. The feed line which enters the rear section should be relocated to enter the return line a few feet from the Boiler.

The valves on the radiators in the Elementary building have been overhauled the past summer and various other repairs made. The interior of the High School Gymnasium has been painted.

An outdoor skating rink has been installed back of the High School. This has been very popular. One or two street lights should be installed there for night skating. These could be like the lights on the old Winter Sports rink.

It has been suggested in Washington that an after the War School Building Program be instituted. If we could get free a new School building and combined Public Auditorium we might better serve the Public. Our elementary building is 29 years old and needs a lot of repairs to put it in proper condition.

Our baseball diamond and athletic field is too small. We need a bigger Gym.

One per cent for repairs would be about $900. It has been suggested an asphalt tile floor be installed in the Home Economics room. It has been suggested the three electric stoves in the Home Economics room be traded for new stoves. Quite a lot of interior painting is needed in both buildings. New window shades are needed. New typewriters are needed.

Finance

This year the average of school rates for the State is .013 while the average of municipal rates is .059. We see that Rangeley with a school rate of .008 and a municipal rate of .045 is below the State average on taxation. The School Taxes in Rangeley in per cent on valuation are less than any Town in the County except Salem and Temple.

The School rates for Franklin County are being added in a separate report.

Teachers Wages during the past year have been about 20 per cent less than they were during 1932.

In 1940 $18,366.24 was appropriated for Schools. In 1930 $23,481.65 was appropriated for Schools.

The cost of board has gone up $1 per week this year. With the shortage of teachers, and machine shop workers earning $60 per week and men working in the woods earning $35 per week, teachers are apt to leave the School room for the shop. It is estimated that there will be a shortage of 60,000 teachers this coming Fall.

This year we have a balance on the Common School account which is due partly to the fact that the Sub-Primary position has been abolished. However many still wish their children to go to School when only 5 years of age. So it looks as if the customers would not be entirely satisfied until the Sub-Primary teacher is restored.

In 1932 we were paying $1,050 for Elementary School teachers and $1,200 for High School teachers.

39,000 Maine children in January had the benefit of the School lunch program. The surplus commodities largely pay for this. Food prices have soared to 19 per cent above recent normal.

The Selectmen have taken over the administration of the School Insurance and added it to the Town Insurance. I understand there is now one Insurance Policy with a key agent and sub-agents.

Public Use of School Gymnasium

The Civilian Defense has requested the use of the Gymnasium for meetings and it has been granted them.

Since the Baptist Church lost their building by fire they have asked for use of the High School Assembly room. More and more Civilian Defense organizations are requiring the use of the High School during the emergency. It will cost more for heat, light and janitor.

I wish to thank the School Board, Town Officials and other interested parents, pupils, teachers and friends of the school for their cooperation.

Respectfully submitted,

ARTHUR IRISH,

Superintendent of Schools.

REPORT OF PRINCIPAL OF HIGH SCHOOL

To the Citizens of Rangeley:

Fifty-seven girls and forty-three boys have enrolled in High School in classes as follows: Seniors 22, juniors 20, sophomores 29, and freshmen 29. The average attendance for the first term was 95.27.

The teaching positions made vacant by the resignations of Miss Tomlinson, Miss Irish, and Mr. Hall have been filled satisfactorily by Miss Lula Mitchell, Miss Madeleine Dennett, and Mr. Ralph Norton, respectively.

There have been no curricula changes this year. However, many educators are asking for more emphasis to be placed on courses in health and physical education. The State pays a part of the salary of an accredited instructor in physical education, and in many schools where there are gymnasium facilities the course is required of all boys and girls.

The usual plans are being made for work in public speaking and dramatics. Last year these departments were very successful. One cup was won in prize speaking and two contests were won in interscholastic one-act play competition. The 1942 N. F. C. I. prize speaking will be held in Rangeley on March 10.

The athletic program includes six-man football, basketball, and baseball with basketball the only self-supporting sport. Last year Rangeley's share of the receipts from the County basketball tournament was $60.21.

The financial condition of the Athletic Association is as follows:

Report of the Health Officer

February 6, 1942

To the Selectmen of Rangeley:

Dear Sirs:

There have been reported 11 cases of chickenpox, 4 cases of mumps and 2 cases of pneumonia. 17 calls have been made, 4 visits to the school, and 1 call for sanitary inspection.

Sincerely yours,

THERESA B. RICH, R. N.,

Health Officer.

North Franklin County Nursing Service

To the Citizens of the Town of Rangeley:

I submit the report of the North Franklin County Nursing Service from January 1, 1941 to December 31, 1941.

Two visits were made to the homes of infants, six to preschools, and 16 to the homes of school children. Three home visits were made in the interest of crippled children's cases.

The nurse's inspections were carried out in the Grammar school, High school. Two hundred and eighty children were seen. Records of the Grammar students were completed. Reports were prepared and sent to the parents of the Grammar students. A mass record was returned to the High school room for reference.

One faculty meeting and 17 conferences were held with teachers in reference to defects found and plans were suggested for several corrections. Approaches will be made to organizations and plans will be made with the local dentists to have a number of dental corrections made.

In follow-up of defects four visits were made to the Selectmen's office and three to the doctor's office. The Nurse visited the Town Clerk's office to obtain the record of births for the previous year for follow-up.

Request slips were distributed and plans were made for an immunization clinic. The nurse assisted the District State Health Officer in administering 52 vaccinations as protection against smallpox, 52 toxoid treatments as a protection against Diphtheria and 104 Tuberculin tests to determine whether any individuals had been exposed to Tuberculosis.

As a result of the nurse's inspection in the school, the defects were evaluated and increased number of home visits were made. A greater united effort was made to increase the number of corrections, and, it is felt, this has been accomplished. The nurse worked in close coöperation with your teachers who were most helpful in stressing

the needs for corrections. In case corrections were needed, but could not be financed, through the helpful direction of teachers and officials, organizations and individuals were approached, and they have been most helpful in financing many of these.

Your County is fortunate in having the facilities of clinics. Each month the Hospital maintains the Services of crippled children's clinics with an Orthopedic Surgeon in charge to which we may direct any individuals who appear to have any deforming conditions, if their family physicians desire these services. Each month a chest clinic, sponsored by the Bureau of Health, is held at the Hospital so that Tuberculosis cases and their contacts may be followed-up.

Visits were made to the mothers, infants, and preschools. Literature was given to mothers and discussions were carried out in reference to diet, rest, fresh air, health habits and child training.

As an educational feature of this Service, each year the Maine Public Health Association provides us with literature, posters, movie films and milk bottle caps carrying the Early Diagnosis Campaign Slogan. These were distributed early in April to schools, industries, stores, business establishments and dairies.

As has been the custom for a number of years, space was allotted the County nurses at the Franklin County Fair grounds. Literature pertaining to all phases of health was available upon request, posters were displayed and the most recent films were shown in reference to Tuberculosis, Cancer and Syphilis. It was felt that a gratifying number of people saw these pictures and requested literature.

In summarizing the Year's program, the nurse finds that the home visits to mothers, infants, and preschools, and to school children as well as other cases have been invaluable. She found that through these visits she has been able to inform the public as to her functions, to explain the meaning of findings of defects and so often to help direct the individuals toward the means of correction.

Through these visits she has been able to overcome the belief that the public health nurse works only with indigent cases. She finds people are most interested to learn that the objective of the Service is to aid in maintaining the best public health and to suggest measures toward the best healthful living, to find symptoms of defects and help plan for corrections and to urge measures such as protective treatment to prevent certain diseases.

There were 118 pupils in the Rangeley school who qualified for the Seven Point Pin and Certificate.

Never before have we been more aware of the need for the best we can maintain in health. We are concerned with the fact that not only do we need the best we have in physique for fighting men in this war, but we must endeavor to attain the best possible physical health for our future generation. That future generation depends so much upon the best possible public health measures carried out now.

The nurse wishes to take this opportunity to express her appreciation to the citizens who have participated in the health activities.

Respectfully submitted,

North Franklin County Nursing Service,

By RUBY G. BENNETT, R. N.,

Public Health Nurse.
